

2023

TRASH REMOVAL SUMMIT

BEST PRACTICES IN WATERWAY TRASH SKIMMING

21 September 2023

8:00 AM to 05:30PM

Environmental trends have placed greater awareness (rightfully so) on clean water and waterways. There are various tools and techniques that have gained popularity. Join us to hear best practices and insights about owning and operating a Trash Skimmer and trash removal program.

DISCUSSION AND INSIGHT TOPICS

DEVELOPING A TRASH SKIMMING PROGRAM

Best practices to develop a trash skimming program depending on your operational needs

OPERATING A TRASH SKIMMING PROGRAM

Tips, tricks, and metrics to manage the machine, the people, and the program

TRENDS, PR, REGULATIONS, AND FUNDING

Hear different industry trends, regulation and compliance requirements, community involvement, and funding ideas
